

KASGO CON 2026

Theme: Contemporary GI OncoSurgery Practice:
Principles, Operative Techniques and Evidence

Hosted By Karnataka Association of
Surgical Gastroenterology and GI OncoSurgeons

Date: 5th & 6th September 2026

Venue: Royal Orchid, Yelahanka, Bengaluru

Welcome to KASGOCON 2026

“ It is our great pleasure to invite you to participate in **KASGOCON 2026**, the 5th annual conference of the Karnataka Association of Surgical Gastroenterology and GI OncoSurgeons.

Bringing together the leading Surgical Gastroenterologists and GI OncoSurgeons in Karnataka on a single platform; this conference aims to foster a meaningful dialogue, multi disciplinary collaboration and the exchange of cutting edge knowledge in GI cancers.

Whether you are an established practitioner, an academician or a trainee; this conference offers an unique opportunity to learn from national leaders, share experiences, present research and contribute to shaping the future of GI cancer care in Karnataka.

We warmly welcome you to join us at Royal Orchid Yelahanka, Bengaluru on the 5th and 6th of September. ”

DAY - 1

5th September-2026

Time	Topic
09:00AM - 11:00AM	Session 1 - Lymphadenectomy in esophageal carcinoma
09:00AM - 09:15AM	Anatomy of lymph node stations and principles of two and three field lymphadenectomy
09:15AM - 09:35AM	Operative Technique 1 Thoraco-laparoscopic 2 field clearance
09:35AM - 09:55AM	Operative Technique 2 Robotic 3 field clearance
09:55AM - 10:10AM	Evidence for two and three field lymphadenectomy
10:10AM - 10:45AM	Must know section: Avoiding complications during surgery, role of chemoradiotherapy
10:45AM - 11:00AM	Commentary

11:30AM - 01:30PM	Session 2 - D2 lymphadenectomy for gastric cancer in the MIS era
11:30AM - 11:45AM	Terminology of lymph node stations and principles of D2 lymphadenectomy
11:45AM - 12:05PM	Operative Technique 1 Lap D2 resection during distal gastrectomy
12:05PM - 12:25PM	Operative Technique 2 Lap/robotic D2 resection during total gastrectomy
12:25PM - 12:40PM	Updated evidence for D2 lymphadenectomy
12:40PM - 01:15PM	Must know section: Role of peri-operative therapy, case based discussion
01:15PM - 01:30PM	Commentary

02:30PM - 04:30PM	Session 3 - Right sided colon cancer
02:30PM - 02:45PM	Surgical anatomy of mesocolon, lymph node stations, planes of dissection
02:45PM - 03:05PM	Operative Technique 1 Standard lap left hemicolectomy with CME-CVL
03:05PM - 03:25PM	Operative Technique 2 D3 lap right hemicolectomy
03:25PM - 03:40PM	Evidence for oncological advantage, morbidity of standard vs. extended node clearance
03:40PM - 04:15PM	Must know section: Role of molecular markers, selection of adjuvant chemotherapy and immunotherapy
04:15PM - 04:30PM	Commentary

Time	Topic
05:00PM - 07:00PM	Session 4 - Ultra-low rectal cancer
05:00PM - 05:15PM	Anatomy of the mesorectum, sphincter complex as applied to low rectal cancers
05:15PM - 05:35PM	Operative Technique 1 Robotic ISR +/- lateral lymph node clearance
05:35PM - 05:55PM	Operative Technique 2 Laparoscopic Ultra-low AR
05:55PM - 06:10PM	Evidence for oncological and functional outcomes in ISR, ULAR
06:10PM - 06:45PM	Must know section: MRI in rectal cancer staging; role of neoadjuvant chemoradiation in a case-based discussion
06:45PM - 07:00PM	Commentary

DAY - 2

6th September-2026

Time	Topic
09:00AM - 11:30AM	Session 1 - Hilar lymphadenectomy
09:30AM - 09:45AM	Standard nomenclature of node stations, frequency of drainage in upper GI & HPB cancers
09:45AM - 10:05AM	Operative Technique 1 Technique of hilar lymphadenectomy (laparoscopic)
10:05AM - 10:25AM	Operative Technique 2 Technique of hilar lymphadenectomy (robotic)
10:25AM - 10:40AM	Evidence for survival statistics with hilar nodal involvement in upper GI & HPB cancers
10:40AM - 11:15AM	Must know section: Case based/MCQ based discussion
11:15AM - 11:30AM	Commentary

12:00Noon - 02:00PM	Session 2 - Retroperitoneal margin in pancreaticoduodenectomy
12:00Noon - 12:15PM	Definition of mesopancreas, levels of mesopancreas dissection (MPD), IPDA variations, SMV anatomy
12:15PM - 12:35PM	Operative Technique 1 Conventional dissection with type I MPD, triangle operation
12:35PM - 12:55PM	Operative Technique 2 Robotic supra colic artery first approach with type II MPD
12:55PM - 01:10PM	Evidence for R0 resection rates, morbidity, reproducibility of systematic MPD types I-III
01:10PM - 01:45PM	Must know section: Pathology reporting of a pancreaticoduodenectomy specimen, radiological assessment of borderline resectable, locally advanced tumors
01:45PM - 02:00PM	Commentary
